1 Agreements With Client

For this project I was asked to create a back-office application and website for DuelSys inc., the software solution should help the sports associations to manage their tournaments.

For the back-office application, it will be for sports associations, and for the website, it will be for players and any interested party. Down below is a list of the most important agreements

1. The software solution could be extendable to add more sports.
2. The software solution could be extendable to add more tournament systems.
3. The software must be able to support multiple sports types.
4. The software must be able to handle ties.

2 Functional Requirements

There are certain things the system should be able to do. DuelSys has two users for the software solution, for this reason, I have to implement certain functional requirements.

2.1 Back-office

The back-office will be for the staff of the associations and for Duelsys employees who are admins in the solution who can manage the accounts of the employees of the associations and manage the tournaments of the associations, therefore the back-office will have the functions that can help them manage the tournaments. I will use tables to prioritize the requirements using the MoSCoW methods.

2.1.1 Sports associations management functions

Number	Category	Description	Status
FR-29	Could	The admin could be able to establish an association	
FR-37	Could	The admin could be able to deactivate an association	
FR-38	Could	The admin could be able to view associations	✓

2.1.2 Sports associations user management functions

Number	Category	Description	Status
FR-01	Must	The employee or admin must be able to log in.	✓
FR-02	Must	The employee or admin must be able to log out.	✓
FR-03	Must	The admin should be able to add an account.	✓
FR-04	Must	The admin should be able to view an account.	✓
FR-05	Must	The admin should be able to update an account.	✓
FR-06	Must	The admin should be able to delete an account.	✓
FR-27	Could	The employee could change the password after her/him password got generated.	

2.1.3 Tournament management functions

Number	Category	Description	Status
FR-07	Must	The staff must be able to create a tournament.	✓
FR-08	Must	The staff must be able to view a tournament Info.	✓
FR-25	Must	The staff must be able to Update tournament Info.	✓
FR-09	Must	The staff must be able to delete the tournament.	✓
FR-10	Must	The staff must be able to generate a tournament schedule.	✓
FR-11	Must	The staff must be able to register match results.	✓
FR-30	Must	The system must be able to handle ties.	✓
FR-39	Must	The system must support multiple sport types	✓
FR-35	Should	The system Should be able to support muliple tournament systems	
FR-28	Could	The player get notified if there are any changes in the tournament they are registered in it.	
FR-31	Could	The employee could change the password after her/him password got generated.	
FR-32	Won't	Support leaderboard	

Number	Category	Description	Status
FR-34	Won't	Support challenge games	
FR-36	Won't	Support matches in a tournament	

2.2 Website

2.2.1 User functions

Number	Category	Description	Status
FR-12	Must	The player must be able to log in.	✓
FR-13	Must	The player must be able to log out.	✓
FR-26	Must	The player must be able to register an account	✓
FR-14	Could	The player could be able to edit her/him personal information.	
FR-40	Could	The player can join team	
FR-41	Could	The player can get out of team	
FR-42	Could	The Team leader can remove member	
FR-33	Won't	The system won't generate profiles for players	

2.2.2 Tournament functions

Number	Category	Description	Status
FR-18	Must	The player must be able to register for the tournament.	✓
FR-19	Must	Anyone must be able to view tournament Information.	✓
FR-20	Must	Anyone must be able to view tournament statistics.	✓
FR-21	Must	Anyone must be able to view tournament results.	✓
	Should		
	Could		
	Won't		

3 Use cases

3.1 desktop application

3.1.1 Sports associations user management functions

UC-01

Use Case Title	Log in to the back office
Use Case Number	UC-01
Functional Requirement	FR-01
Actor	Employee or admin
Pre-condition	Actor has an account
Post-condition	System displays home page
Main Success Scenario	
<ol style="list-style-type: none">1. The actor fills her/his username and password2. The actor confirms her/his log in3. The system displays the home page	
Extensions	
2a: No text entered <ol style="list-style-type: none">1. The system shows the actor to fill all needed fields2. Return to MSS 1	
2b: Entered credentials don't match any credentials in system <ol style="list-style-type: none">1. The system clears the password field2. The system tells the actor that the wrong info is entered3. Return MSS 1	

UC-02

Use Case Title	Log out from the back-office
Use Case Number	UC-02
Functional Requirement	FR-02
Actor	Employee or admin
Pre-condition	Actor must be already logged in
Post-condition	System displays login page
Main Success Scenario	
<ol style="list-style-type: none">1. The actor clicks on log out2. The system displays log in page	

UC-03

Use Case Title	Add an account
Use Case Number	UC-03
Functional Requirement	FR-03
Actor	Admin
Pre-condition	Actor opened main accounts page
Post-condition	New account got added
Main Success Scenario	
<ol style="list-style-type: none">1. The admin wants to create an account2. The admin chooses an account type3. The admin fills the required fields4. The admin confirms and make an account5. The system closes create an account page6. The system shows updated list of users in main accounts page	
Extensions	
4a: No type selected <ol style="list-style-type: none">1. The system displays there is no account type selected2. The system keeps the rest of the fields3. Return to MSS step 2	
4b: Missing required fields <ol style="list-style-type: none">1. The system displays there are missing required fields2. The system displays which are the required fields3. Return to MSS step 3	

UC-04

Use Case Title	View an account
Use Case Number	UC-04
Functional Requirement	FR-04
Actor	Admin
Pre-condition	Actor opened main accounts page
Post-condition	Account information got shown
Main Success Scenario	
<ol style="list-style-type: none"> 1. The admin selects an account from the list of the accounts 2. The admin presses two times on the account of interest 3. The system displays a page with the account information 	

UC-05

Use Case Title	Update an account
Use Case Number	UC-05
Functional Requirement	FR-05
Actor	Admin
Pre-condition	Actor opened main accounts page
Post-condition	Current account got updated
Main Success Scenario	
<ol style="list-style-type: none"> 1. The admin selects an account from the list of the accounts 2. The admin chooses to update account 3. The system shows the account information 4. The admin changes the account information 5. The admin saves the changes 6. The system displays that the account got updated 7. The system closes update an account page 8. The system shows updated list of users in main accounts page 	
Extensions	
5a: Missing required fields <ol style="list-style-type: none"> 1. The system shows there are missing required fields and 2. The system shows what are the missing fields 3. Return to MSS step 4 	

UC-06

Use Case Title	Delete an account
Use Case Number	UC-06
Functional Requirement	FR-06
Actor	Admin
Pre-condition	Actor opened main accounts page
Post-condition	Existed account got deleted
Main Success Scenario	
<ol style="list-style-type: none">1. The admin selects an account from the list of the accounts2. The admin presses on the delete account3. The system asks to confirm the deleting action4. The admin confirms the deleting action5. The system shows the account got deleted6. The system shows updated list of users in main accounts page	
Extensions	
<p>4a: The actor doesn't confirm the deleting action</p> <ol style="list-style-type: none">1. The system shows the main accounts on page2. Return to MSS step 1	

3.1.2 Tournament management functions

UC-08

Use Case Title	Create a tournament
Use Case Number	UC-08
Functional Requirement	FR-07 & FR-39
Actor	Admin or employee
Pre-condition	Actor opened main tournaments page
Post-condition	New tournament got created
Main Success Scenario	
<ol style="list-style-type: none">1. The actor wants to create new tournament2. The system displays create tournament page3. The actor fills in needed to information to create tournament4. The actor presses on to create5. The system shows the summary of the information6. The actor confirms the information7. The system shows that the new tournament got created	
Extensions	
4a: There is no game type selected <ol style="list-style-type: none">1. The system shows there is no game type selected2. The system keeps all of the entered information3. Return to MSS step 3	
4b: There are missing required fields <ol style="list-style-type: none">1. The system shows there are missing required fields2. The system shows what are the missing fields3. Return to MSS step 3	
4c: There is no tournament system selected <ol style="list-style-type: none">1. The system shows there is no tournament system selected2. The system keeps all of the entered information3. Return to MSS step 3	

UC-09

Use Case Title	View tournament
Use Case Number	UC-09
Functional Requirement	FR-08 & FR-30
Actor	Admin or employee
Pre-condition	Actor opened main tournaments page
Post-condition	Tournament information got viewed
Main Success Scenario	
<ol style="list-style-type: none">1. The actor presses two times on the interested tournament from the list of tournaments2. The system shows a new form with all of the information related to the tournament	

UC-10

Use Case Title	Update tournament
Use Case Number	UC-10
Functional Requirement	FR-25
Actor	Admin or employee
Pre-condition	Actor opened main tournaments page
Post-condition	Tournament information got updated
Main Success Scenario	
<ol style="list-style-type: none"> 1. The actor presses twice on the desired tournament from list 2. The system shows a form with all tournament information 3. The actor modifies the fields 4. The actor presses on save 5. The system shows a summary with all of the changed information 6. The system asks to confirm the changes 7. The actor confirms 8. The system shows the changes got saved 	
Extensions	
4a: Missing required fields <ol style="list-style-type: none"> 1. The system shows there are missing fields 2. The system shows what are the missing fields 3. Return to MSS step 2 	
4b: There are no changes <ol style="list-style-type: none"> 1. The system shows there are no changes 2. Return to MSS step 3 	
4a: The actor doesn't confirm the changes <ol style="list-style-type: none"> 1. The system shows that all of the changes will be redone 2. The system asks to confirm that all of the changes will be redone 3. The actor confirms 4. Return to MSS step 2 	

UC-11

Use Case Title	Delete tournament
Use Case Number	UC-11
Functional Requirement	FR-09
Actor	Admin or employee
Pre-condition	Actor opened main tournaments page
Post-condition	Tournament got deleted
Main Success Scenario	
<ol style="list-style-type: none">1. The actor chooses tournament2. The actor presses on delete tournament3. System asks for confirming the deleting action4. The actor confirms5. The system shows the tournament got deleted	
Extensions	
4a: Actor doesn't confirm <ol style="list-style-type: none">1. The system shows the main tournaments page2. End of use case	

UC-12

Use Case Title	Generate tournament schedule
Use Case Number	UC-12
Functional Requirement	FR-10
Actor	Admin or employee
Pre-condition	Actor opened the tournament information page
Post-condition	Tournament schedule got generated
Main Success Scenario	
<ol style="list-style-type: none">1. The actor chooses schedule page2. The system shows the schedule page3. The actor presses on generate schedule4. The system generates a new schedule5. The system shows the new schedule	
Extensions	
3a: The tournament doesn't have the minimum requirements <ol style="list-style-type: none">1. The system shows that the tournament doesn't have minimum requirements2. The system shows that are missing requirements3. Return to MSS step 2	

UC-13

Use Case Title	Register match results
Use Case Number	UC-13
Functional Requirement	FR-11
Actor	Admin or employee
Pre-condition	Actor opened the tournament information page
Post-condition	Match results got registered
Main Success Scenario	
<ol style="list-style-type: none">1. The actor presses on matches page2. The system shows the matches on page3. The actor chooses the match from matches list4. The actor presses on register results5. The system shows registered results on page6. The actor fills the fields7. The actor presses on register result8. The system shows that the results got saved	
Extensions	
2a: There are no matches generated <ol style="list-style-type: none">1. The system shows there are no matches2. Return to MSS step 1	
7a: There are missing required fields <ol style="list-style-type: none">1. The system shows there are missing required fields2. The system shows what are the missing fields3. Return to MSS step 6	
7b: The entered scores doesn't match the game scoring system <ol style="list-style-type: none">1. The system shows the entered scores are not match the game scoring rule2. Return to MSS step 6	

3.2 Website

2.2.1 User functions

UC-14

Use Case Title	Log in
Use Case Number	UC-14
Functional Requirement	FR-12
Actor	User
Pre-condition	The actor is registered in the system
Post-condition	Home page opened
Main Success Scenario	
<ol style="list-style-type: none">1. The user fills her/his username and password2. The user wants the login3. The system displays the home page	
Extensions	
2a: No text entered <ol style="list-style-type: none">1. The system asks the user to fill up all the fields2. Return to MSS 1	
2b: Entered credentials don't match any credentials in system <ol style="list-style-type: none">1. The system clears the password field2. The system shows the user that the wrong credentials entered is wrong3. Return MSS 1	
2b: Entered credentials is for staff account <ol style="list-style-type: none">1. The system shows that staff can't use the website with the staff account2. End of use case	

UC-15

Use Case Title	Log out
Use Case Number	UC-15
Functional Requirement	FR-13
Actor	Player
Pre-condition	The actor must be already logged in
Post-condition	The system logged out the actor
Main Success Scenario	
<ol style="list-style-type: none">1. The player presses on log out2. The system displays the home page	

UC-16

Use Case Title	Register new account
Use Case Number	UC-16
Functional Requirement	FR-26
Actor	Player
Pre-condition	The actor on the register page
Post-condition	The actor created new player account
Main Success Scenario	
<ol style="list-style-type: none">1. The actor fills in the needed information to register a new account2. The player confirms the registration3. The system shows that a new account got created4. The system shows the log on page5. The system redirects to use case Log in (UC-14)	
Extensions	
<p>2a: Missing fields</p> <ol style="list-style-type: none">1. The system shows there are missing fields2. The system shows what are the missing fields3. Return to MSS step 1	

2.2.2 Tournament functions

UC-19

Use Case Title	View a tournament
Use Case Number	UC-19
Functional Requirement	FR-19
Actor	Anyone
Pre-condition	The actor opened tournament page
Post-condition	Tournament got viewed
Main Success Scenario	
<ol style="list-style-type: none">1. The actor chooses tournaments on page2. The system views all of the tournaments3. The actor chooses tournament4. The system shows the tournament page	
Extensions	
2a: There are no tournaments <ol style="list-style-type: none">1. The system shows there are no tournaments2. End of use case	

UC-20

Use Case Title	Register in tournament
Use Case Number	UC-20
Functional Requirement	FR-18
Actor	Player
Pre-condition	The actor opened tournaments page
Post-condition	The actor is registered in tournament
Main Success Scenario	
<ol style="list-style-type: none">1. The player chooses the tournament2. The system shows the tournament on page3. The player presses on register4. The system shows that the actor got registered	

UC-21

Use Case Title	View tournament statistics
Use Case Number	UC-21
Functional Requirement	FR-20
Actor	Anyone
Pre-condition	The actor opened a tournament page

Update Back

4.1.2.8 The home page for DuelSys admin

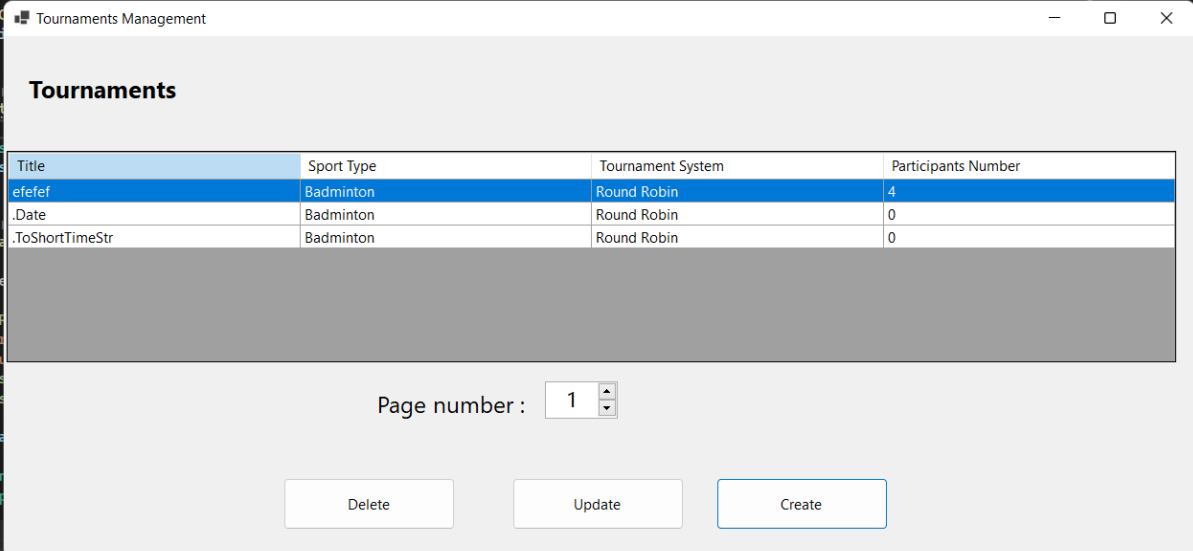

On the right the user can log out using the Log out button. In the middle of the page, there are list of associations. At the bottom, there are three buttons one for the admin to manage employees' accounts of DuelSys admin's accounts, the middle one is to manage the association's employees and the other for all of the staff to manage the tournaments

4.1.3 Tournaments management

4.1.3.1 The main tournament's page

On this page, the user can see a list of the tournaments and see some information about them. On the bottom, the user can delete or manage or create a new tournament.

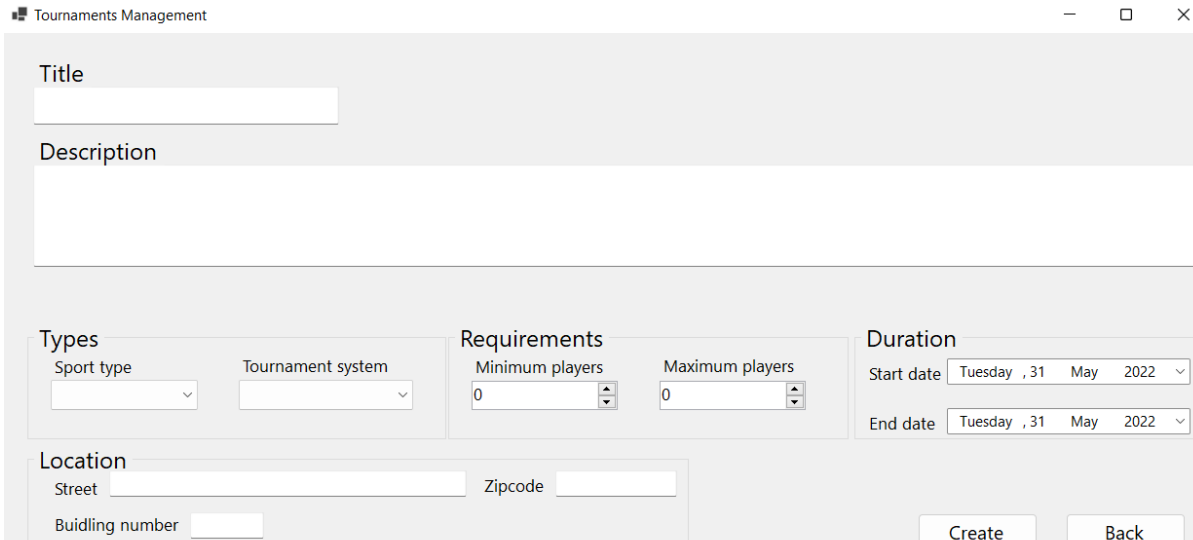

The screenshot shows a web application window titled "Tournaments Management". The main content area is titled "Tournaments" and displays a table with the following data:

Title	Sport Type	Tournament System	Participants Number
efefef	Badminton	Round Robin	4
.Date	Badminton	Round Robin	0
.ToShortTimeStr	Badminton	Round Robin	0

Below the table, there is a "Page number" field set to 1. At the bottom, there are three buttons: "Delete", "Update", and "Create".

4.1.3.2 Creating a tournament

On this page the user can create a tournament by filling in all the required fields and clicking create button.

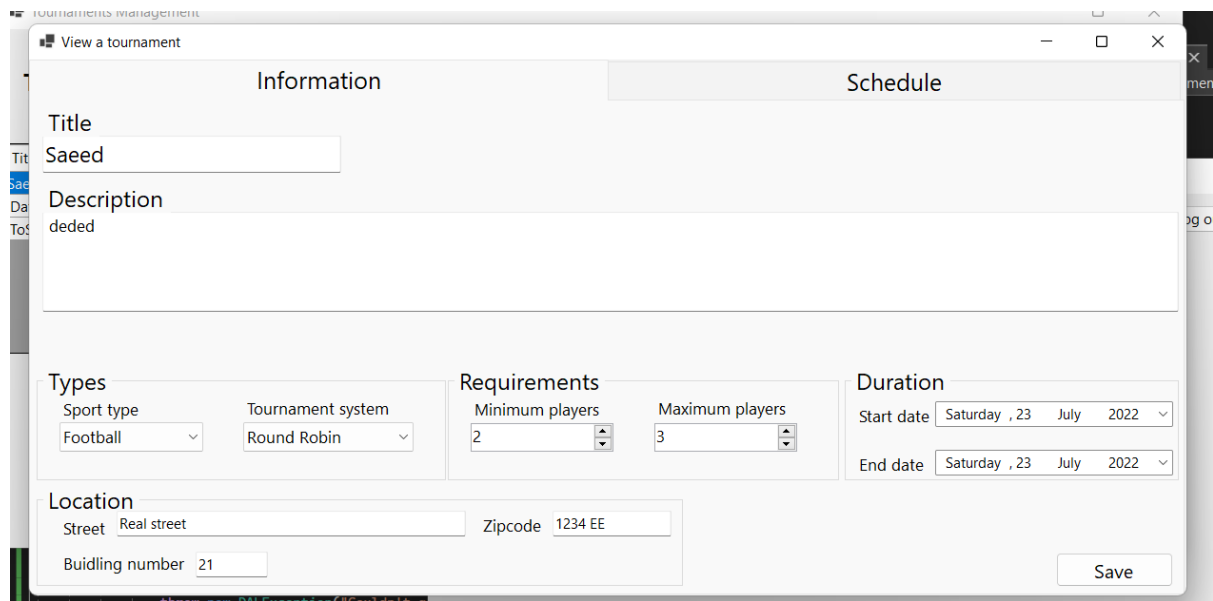

The screenshot shows a web application window titled "Tournaments Management" with a form to create a new tournament. The form includes the following fields:

- Title**: A text input field.
- Description**: A large text area.
- Types**: Two dropdown menus for "Sport type" and "Tournament system".
- Requirements**: Two dropdown menus for "Minimum players" and "Maximum players", both set to 0.
- Duration**: Two date pickers for "Start date" and "End date", both set to Tuesday, 31 May 2022.
- Location**: Three text input fields for "Street", "Zipcode", and "Building number".

At the bottom right, there are two buttons: "Create" and "Back".

4.1.3.3 View a tournament

On this page the user can view all the tournament information, and change them.

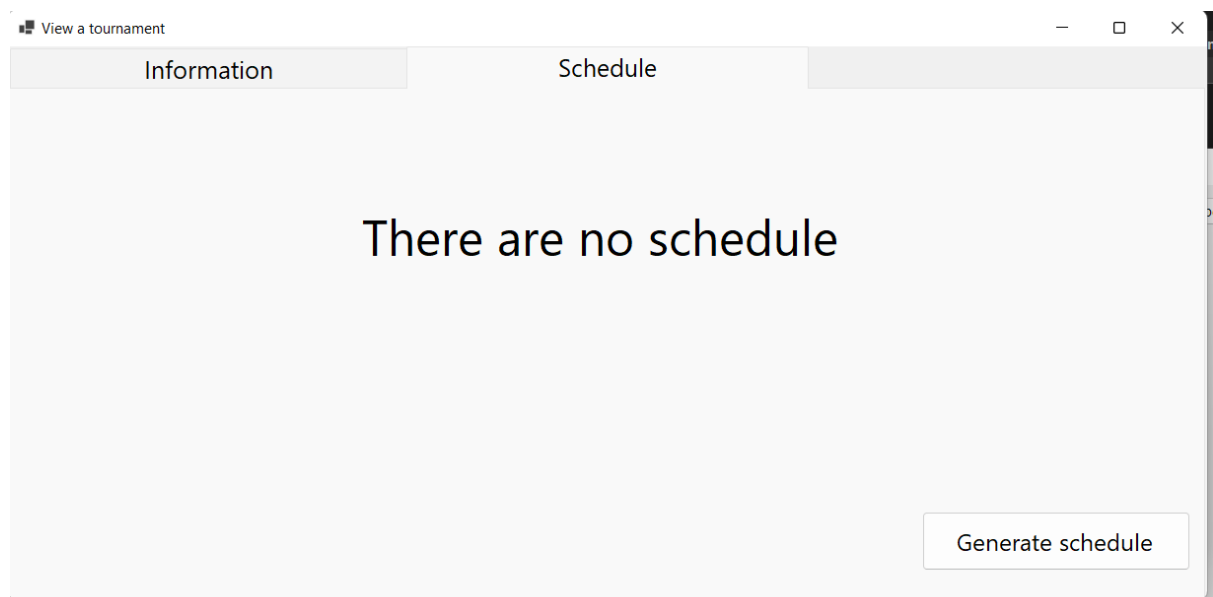

The screenshot shows a web application window titled "View a tournament". It has two tabs: "Information" (active) and "Schedule". The "Information" tab contains the following fields:

- Title:** A text input field containing "Saeed".
- Description:** A text input field containing "deded".
- Types:** A section with two dropdown menus: "Sport type" (set to "Football") and "Tournament system" (set to "Round Robin").
- Requirements:** A section with two dropdown menus: "Minimum players" (set to "2") and "Maximum players" (set to "3").
- Duration:** A section with two date pickers: "Start date" (set to "Saturday , 23 July 2022") and "End date" (set to "Saturday , 23 July 2022").
- Location:** A section with three input fields: "Street" (containing "Real street"), "Zipcode" (containing "1234 EE"), and "Buidling number" (containing "21").

A "Save" button is located at the bottom right of the form.

4.1.3.4 Generate Schedule

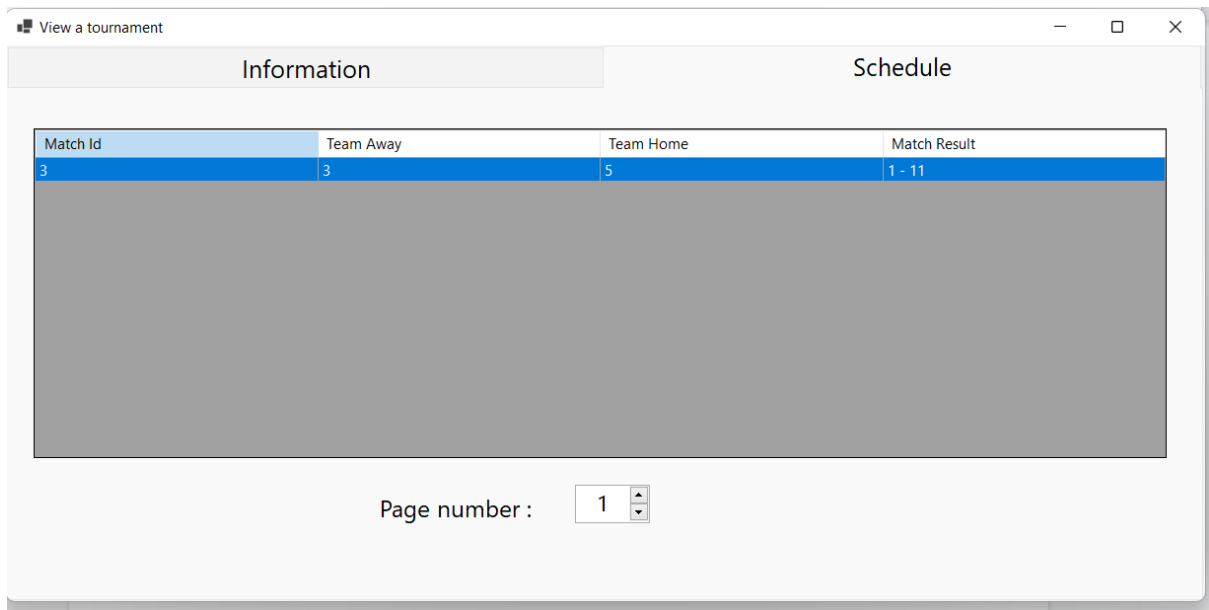

On this page user can generate a schedule for the tournament by clicking on the Generate schedule button.

The screenshot shows the same "View a tournament" window, but with the "Schedule" tab selected. The "Information" tab is now inactive. The "Schedule" tab displays the text "There are no schedule" in the center. A "Generate schedule" button is located at the bottom right of the tab.

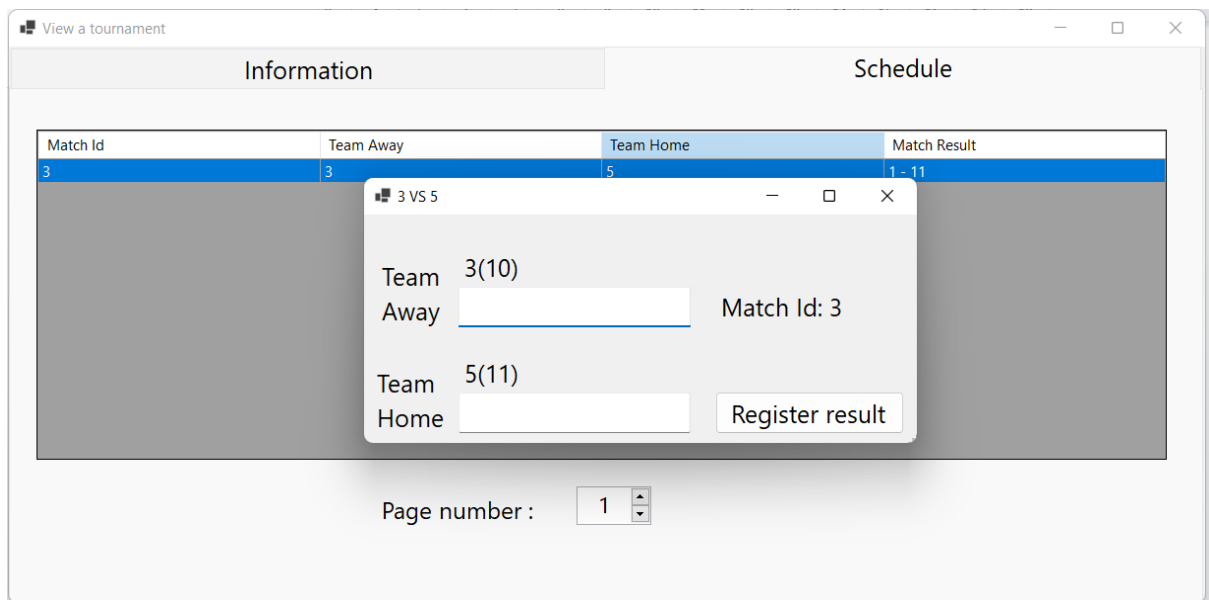

4.1.3.5 Tournament Schedule

On the middle of the page user can view the match of the selected tournament.

4.1.3.4 Registering results

On this page user can register the match results, by filling the points boxes and click on register result.

4.2 Website

4.2.1 Users management

4.2.1.1 Log in

On this page the user can log in, by filling in the credentials, and clicking log in button. If the user doesn't have an account the user can register as a player by clicking the register button.
