Notes

- It's good to keep your tutor updated on other teachers' feedback
- Update functional requirements MOSCOW
- Update URS for your new decisions.
- Keep your documentation alive by updating it each iteration.
- Update the wireframes by adding screenshots from the application itself.
- Keep your data access method gets what you need and what you want to push
- Ask about what they mean by optimizing the queries
- Week 16 there are no WKS hours so no formal tutor meeting. In case of questions: send mail and I will check when available that week.
